DOUBLE BREAST PUMP

Neno Due breast pump lets you express milk from both breasts at the same time, so that the entire process takes up much less time than when using a normal, single breast pump.

Two bottles are included with the breast pump, so you can use it out of the box.

**Two Bottles
included**

HYGIENE

The special design of the Neno Due breast pump prevents the milk from flowing back, letting it stay fresh and keeping the young mother healthy.

TOUCH PANEL

Using the Neno Due breast pump is nice and easy thanks to the intuitive touch panel. Additionally, the device remembers the last settings used.

STIMULATION

Before expressing milk, Neno Due stimulates the breast glands to ensure better milk flow.

SKIN-FRIENDLY

The breast shields of the Neno Due breast pump are made out of Japanese silicone that is pleasant to the touch, reduces the feeling of discomfort and makes milk expression easier.

No element of the breast pump contains BPA, which makes the device safe to use.

EASY TO USE

All it takes is one click. The Neno Due breast pump automatically switches from stimulation mode to milk expression mode. Additionally, the device turns itself off after 30 minutes of use.

TWO MODES

Neno Due can be used to express milk from one or both breasts, so you can adjust the work mode of the device to your needs.

A FULL SET

When you purchase Neno Due, you get not just the device, but also milk bottles and rubber teats that for them.

EASY STERILIZATION

Parts of the breast pump has to be cleaned and sterilized regularly. You can do this using boiling water or a steam sterilizer, like the one used to disinfect baby bottles.

UNIVERSAL

The Neno Due breast pump can be used by any young mother, regardless of her breast size.

TECHNICAL SPECIFICATION

Model: *neno Due*

Weight:	785g
Size:	81x66x62 mm
Battery capacity and type:	3.7v 1400 mAh Li-Ion
Charging port:	USB-C
Modes of operation:	5 stimulation levels, 9 expression levels
Charging time:	2 hours
