polpo

*Baby feeding set with food heating/
cooling feature and non-slip suction
cup*

high quality
stainless steel

non-slip
suction cup

food heating

perfect gift

**super strong non-slip
suction cup**

The strong, rubber suction cup prevents the bowl from sliding on the table.

heat up or cool down food with water

The bowl lets you heat up or cool down the food in it using water, which is a quick, easy and most importantly healthy solution. High quality stainless steel guarantees that the device can be stored safely without rusting and the interesting shape of the bowl will surely grab you baby's attention.

easy to clean

You can remove the silicone cover from the bowl to easily clean and sterilize it, letting you uphold the highest standards of hygiene.
