COMPRESSOR NEBULIZER

functional

quick

portable

BY **X**blitz<sup>®</sup>

# for the whole family

The Neno Sente compressor nebulizer comes with two face masks: one for adults and one for children that are older than seven, letting you use this one device to help every family member that suffers from respiratory system problems.

adults

children

# *recommended for many respiratory system illnesses*

Nebulization is incredibly helpful when treating conditions such as:  
asthma, respiratory system infections or allergy-induced nasal congestion.

**allergies**

**respiratory congestion**

**asthma**

# *medical product*

The Neno Sente compressor nebulizer has all the certifications and testing necessary to be recognized as a medical device. It can be used by medical professionals.

# *quick and efficient inhalation*

Neno Sente is a small, light device made out of only a few elements. You can easily assemble the entire set and begin treatment in less than a minute.

# *vaporized medicine*

The Neno Sente nebulizer was made with treatment of your respiratory system in mind. One deep breath is all it takes to apply the nebulized dose of medicine or saline.

ERGONOMIC  
HANDLE

## *easy to transport*

The ergonomic design of the nebulizer lets you easily take it with you, which is especially helpful when using the device to treat children.

# *easy cleaning*

All the elements of the Neno Sente nebulizer, that need to be cleaned regularly, can be easily detached from the other parts and washed with running water. Make sure the whole set is dry before using it.

# mobile

Neno Sente is a compact, practical nebulizer. Small size, low weight and an included bag make the device a perfect choice when you're going on a trip with your family.

# functional

The Neno Sente nebulizer has an easy to use measuring scale that lets you easily adjust the dosage of medicine used. Additionally, the long air tube lets you sit comfortably when using the device.

## *quiet*

The Neno Sente nebulizer works very quietly, so you can use it in public spaces and in situations, during which you need to keep quiet.

COMPRESSOR NEBULIZER

Power supply:	AC 220 V 50 Hz
Power usage:	180V A
Medicine container capacity:	2~8 ml
Particle size:	1 to 5 um
MMAD:	3.2 um
Noise level:	=< 70 dBA
Nebulization efficiency:	>= 0.15 ml/ min
Pressure used:	80 to 120 kPa
Air flow:	>= 5 l/ min
Operating temperature:	10-40 °C
Operating air pressure:	860-1060 hPa
Storage temperature:	-20 to 55 °C
Storage air pressure:	500-1060 hPa
Permissible air humidity:	15~93% RH
Compressor dimensions:	170x150x87.5 mm
Compressor weight:	1150 g
Full set weight:	1240 g
Air tube length:	1538 m
